Tangerang, Indonesia

Informatics student at Universitas Multimedia Nusantara with hands-on project experience in Android development, full stack web development, and UI/UX design. Skilled in JavaScript, React.js, Kotlin, and Figma, with experience translating user needs into functional applications and intuitive interfaces. Brings teamwork and coordination skills developed through collaborative projects and campus organizations. Seeking a software or mobile development internship to contribute technical skills and grow through practical experience.

Education Level

Universitas Multimedia Nusantara - **Tangerang, Indonesia** Aug 2024 - Aug 2028 (Expected)

Bachelor of Informatics, 3.94/4.00

- Awarded a tuition scholarship to support undergraduate studies at Universitas Multimedia Nusantara.
- Ranked among the top 15% of Informatics students based on academic performance.

Organisational Experience

Kompas Corner UMN - **Tangerang, Indonesia** Feb 2025 - Feb 2026

General Affairs

Kompas Corner UMN is a campus facility at Universitas Multimedia Nusantara that provides access to information and learning resources while supporting academic activities in an organized and collaborative environment.

- Worked with a team of 5 to support daily facility operations, administrative needs, room reservations, and equipment borrowing.
- Prepared rooms and equipment for 10+ activities, including meetings and podcast filming, arranging facilities according to scheduled requirements.
- Checked 100% of assigned rooms and equipment before scheduled use, reported maintenance needs, and coordinated follow-ups to support facility readiness.
- Helped resolve 8+ room reservation and equipment borrowing issues by coordinating with relevant parties and following up on outstanding requests.

OMB UMN 2025 - **Tangerang, Indonesia** Feb 2025 - Aug 2025

Consumption Division Staff

Orientasi Mahasiswa Baru UMN (OMB UMN) is an annual orientation program that introduces new students to Universitas Multimedia Nusantara's values, culture, and campus environment while fostering student adaptation and collaboration.

- Worked with a team of 20 to coordinate food and beverage logistics across four orientation event days.
- Prepared and distributed meals for 200+ committee members, contributing to 100% on-time meal distribution across assigned sessions.
- Replenished drinking water at designated points across the event area, supporting availability for 1,500+ new students.
- Adjusted meal distribution arrangements in response to schedule changes and on-site requests, coordinating with teammates to meet operational needs.

Skills, Achievements & Other Experience

- **Competition** (2026): Participated in the ISFEST UI/UX International Competition 2026.
- **Hard Skills**: Kotlin, Jetpack Compose, JavaScript, React.js, Node.js, HTML, CSS, MySQL, Python, C#, Figma, Git, GitHub, and Unity.
- **Soft Skills**: Teamwork, problem solving, time management, and attention to detail.
- **Projects** (2026): Developed BudgetLens, an Android application using Kotlin and Jetpack Compose for personal finance tracking, category budgets, and shared expense management. Implemented flexible bill splitting, input validation, PDF reporting, and Supabase integration.
- **Projects** (2026): Designed CampusShare, an interactive Figma prototype for a collaborative student learning platform featuring resource sharing, discussion forums, and an AI learning assistant concept. Created user personas and user flows, and evaluated the interface using Shneiderman’s Eight Golden Rules and Gestalt Principles.
- **Projects** (2025): Developed ROMI Salon, a salon booking and management website using React.js, Node.js, Express.js, and MySQL. Built customer and admin panels covering appointment booking, service management, transactions, and loyalty programs, with JWT authentication and bcrypt password hashing.
- **Courses** (2025): Successfully completed the HCIA-AI V4.0 course, gaining foundational knowledge of artificial intelligence, machine learning, neural networks, and deep learning, including their applications in intelligent systems.
- **Courses** (2025): Successfully completed the HCIA-openGauss V1.0 course, gaining foundational knowledge of database management, SQL operations, relational database concepts, and openGauss database technologies.
